COME HOME TO QUALITY

At Schwartz Creations we believe in tradition. Amish woodworking skills are passed down from generation to generation and building quality furniture is a family enterprise. We also believe in honoring the natural resources so abundant here in Indiana. Oak, Maple, Hickory, Elm and other native woods are carefully selected and painstakingly crafted into functional works of art for the home. Tops and sides are solid wood. Drawers are dovetailed. All features and options are designed to enhance the overall user experience. Soft-close doors with concealed hinges, full-extension drawers, LED lights and hidden power strips with USB ports. . . just a few quality touches you can count on us to offer. Hand crafted construction, a wide variety of styles, artful detailing. . . Schwartz Creations furniture is built for a lifetime of enjoyment. We stand behind each and every piece we make.

SC-Venice Tower
24w x 15¼d x 72h

There is nothing like a warm,
cozy fire on a cold winter's night
or a chilly fall evening before
you finally give in to the need for
whole-house heat. Even when the
cold weather subsides, an electric
infrared fireplace creates a quiet,
relaxing ambiance for all to enjoy.

FIREPLACE UNITS

FIREPLACE UNITS

SAVES ON HOME HEATING COSTS

- Doesn't pull heat out of the home like gas or wood-burning fireplaces
- Zone heating means you can efficiently heat the area you occupy (up to 1,000 sq. ft.) and turn down your furnace thermostat
- Energy bills can be cut by as much as 15% or more

BUILT-IN FIRE PROTECTION

- CSA Safety-Certified
- No exposed flames, pilot lights or flammable gases
- Glass front panel stays cool to the touch
- Patent-pending Safer Plug™ monitors the temperature in the plug
- Safer Sensor™ is an exclusive and advanced safety feature that warns of any object too close to the fireplace and automatically shuts off the unit if the danger is not removed

EASY TO USE

- No venting required
- Standard 120V, 3-prong plug
- LED digital control panel with auto shut-off timer can be accessed directly on unit or remotely

MAXIMUM EFFICIENCY & ECO-FRIENDLY OPERATION

- LED bulbs that create the fire effect have a normal lifespan of 100,000 hours and consume less energy than incandescent bulbs
- LED bulbs stay cool to the touch
- LED bulbs contain no lead thereby reducing greenhouse gas emissions technology and infrared quartz elements

HEALTHIER HEATING

- Infrared quartz elements do not take humidity or oxygen out of room air
- Moist, comfortable heat is ideal for those suffering from allergies or asthma
- No soot, smoke or ash means fewer irritants in the room environment

YEAR-ROUND SOOTHING AMBIANCE

- Amazing flame effects up to 125 options
- 5 flame speeds
- 5 brightness settings
- Manual-set or auto flame colors

ClassicFlame

LEXUS

Splice kits allow for a seamless slide from one rail to the next. The gap shown is for visibility only and would be tightened during construction.

LEXUS ROLLING LADDER BOOKCASE

This 1–multiple piece modular bookcase system is designed in our signature Modern, Sleek Lexus Style, combining refined simplicity with highly functional design. Shown here in a 3-piece configuration, this statement piece delivers both architectural presence and everyday usability.

A front-mounted sliding ladder enhances accessibility while serving as a striking visual feature. The ladder's minimal, modern design keeps the look sleek while adding everyday functionality—making it a standout element and a projected top-selling feature.

Each bookcase can be purchased individually or as part of a complete system. A precision splice kit seamlessly connects the ladder rails between adjacent bookcases, allowing the ladder to glide smoothly from one unit to the next without interruption.

This modular approach offers maximum flexibility—customers can expand, reconfigure, or purchase components independently while maintaining a cohesive, built-in look.

BOOKCASE

SC-LRLBC - Lexus Rolling Ladder Bookcase
Overall: 140w (as shown) x 12d x 96h

Concealed hinges add soft-close feature to all doors

Casters make moving a TV Console or corner cabinet easy

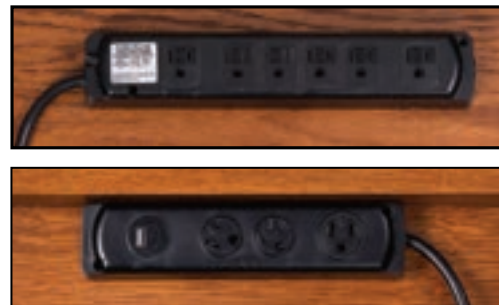

Optional lift-top on coffee table

Standard full-extension glides make placing or removing drawer contents more convenient

Many end table styles are available with optional drink pullout

An optional power strip can be added to any console or cabinet by request

NOTE: Not all options are available on all models
Optional wood species & finishes are also available

CARE AND WARRANTY

Care of Hardwood Furniture

With proper care your furniture will provide years of enjoyment and will become family heirlooms. Maintain a humidity-controlled environment. Your home should be kept in the 35 to 45% humidity range to prevent warping, cracking, and excessive expansion or contraction of raised panels, etc. Avoid placing your furniture in continued direct sunlight or near direct heat source such as furnace ducts or radiators. Clean with water using a soft sponge or cloth. Dry immediately with a soft cloth. Avoid polish that contains silicones.

Warranty

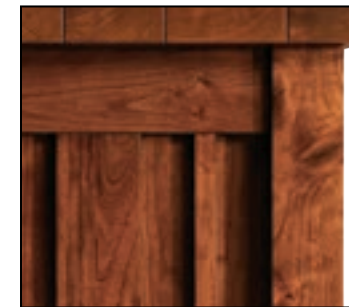

Schwartz Creations warrants its materials, construction and workmanship for a period of two years following the date of purchase by the original customer. If a defect occurs during that period, we will either repair or replace the item or substitute a like item. The final decision is at the discretion of Schwartz Creations.

If humidity moves out of the ideal range, solid wood furniture can expand or contract causing splits in grain panels. These symptoms are the result of an uncontrolled environment and are not considered defective. If the environment is not controlled, these conditions should be appreciated as an inherent characteristic of solid wood furniture. Due to the wood's "open grain" they tend to expand and/or contract in relationship to their environment. Seasonal gapping or minor cracks in the grain patterns of solid wood are considered a normal occurrence and should not be assumed to be a defect of material or workmanship.

If under normal conditions the furniture develops a defect, such as a deep crack, the dealer will visit the customer's home to assess the humidity level. The dealer is responsible for taking a portable hygrometer along to record the humidity level and send the readings to Schwartz Creations. If the humidity is not in the range of 35 to 45%, the warranty is void and repair charges can be assessed. The decision to repair or replace the item is at the discretion of Schwartz Creations.

Limitations

Warranty does not include freight costs to and from factory or inspection fees. These costs are the responsibility of the customer. Negligence, misuse or accidents by the customer will void the warranty.
